

The KLOVE radio station serves my local community by broadcasting music and information that upholds Christian morality. The station reaches residents who may be struggling with drug or alcohol addiction, debt problems, broken marriages and family relationships, loneliness, hopelessness, health problems, and many other obstacles faced by people everyday. KLOVE offers godly teaching on how to overcome difficulty through positive, non-violent song lyrics. Cursing and derogatory comments will not be heard on KLOVE at anytime, and it is a haven of uplifting music for adults and children alike. If KLOVE were displaced by an LPFM broadcaster, I personally would be greatly dissappointed. I listen to KLOVE everyday and draw encouragement and strength from the scriptures, djs, songs, and news updates heard on KLOVE. KLOVE is a beacon of light that reaches people's hearts and helps to prevent moral decay of society. The service provided by KLOVE is in the public interest because it encourages virtues, strong family values, healthy living, and focus on the Creator of everything. Our community is strengthened from the encouragement received from KLOVE.
